## WEB PRESENCE PACKAGE \$995.00

**The Vortech Web Presence Package** is designed for businesses looking to establish an effective and scalable presence on the Internet with no fuss or confusion.

Your custom website will be designed with the purpose of providing visitors information about your business. The Vortech Web Presence Package is the optimal choice for businesses looking to expand their marketing and advertising to a wider audience. Once your website is deployed, it will easily grow with you. You will be able to easily add components, such as e-commerce, newsletters, interactive decision systems and many other components to keep your business and website growing.

### Why Vortech

**Results.** Vortech has made a name for itself consulting and building startups as well as established house hold names since 2000. A Vortech solution is a sign of uncompromising quality and a smart investment in your business. Ask any of our clients.
